JOB DESCRIPTION

Technology Blue is looking for a hands-on Project Manager to join our national consultancy practice, and provide project leadership and management for multiple, simultaneous projects of varying size and scope.

Our Project Managers oversee all aspects of solution delivery projects including resourcing, timelines, scope and budget. The Project Manager serves as the highest point of accountability for the success of the project.

An ideal candidate will have at least 5 years of professional experience fulfilling Project Management roles with a focus on IT solution delivery. This candidate will have experience leading the technical direction for multi-functional, multi-national and multi-regional project teams. The candidate will be equally comfortable collaborating with client management and stakeholders to manage deliverables against timelines and scope.

An exceptional candidate will possess working experience with CMMI for Services.

Additional desired skills and experience:

- Detail-oriented and highly organized
- Strong technical knowledge and aptitude to quickly understand systems and technical concepts
- Strong conflict and issue resolution skills
- Produce results when working autonomously with little supervision
- Exemplary customer-facing skills
